

Important Notice
MWV Children's Museum
Coronavirus Policy

The MWV Children's Museum is a happy, safe place to play. We know that children can pick up germs anywhere as they walk through the world. Staff and volunteers clean and disinfect toys in the museum daily.

We are requiring at this time that everyone that enters the MWV Children's Museum be in good health and disinfect their hands at the front desk.

We have removed all costumes from the space as an extra pre-caution

We have cancelled all larger events that encourage bigger gatherings of guests and are rescheduling what we can to ensure future happy times.

We are reviewing our hours of operation daily, so we may best serve our community. This situation is evolving and we are on top of it and are responsive.

Best,
Shelly Morin
Executive Director
